Application scope

A PIONEER IN THE CABLE INDUSTRY SINCE 1979

Company Profile

Today our world is moving towards sustainable energy.

That is why we have made it our purpose to connect a greener world.

Shenxing Cable Group Co., Ltd. is a large-scale wire and cable production enterprise integrating manufacturing, sales, design and R&D.

The company currently has more than 200 products with complete varieties and wide coverage.

Widely used in machinery manufacturing, oil exploration, national defense and military, electrical equipment, fire engine construction, metallurgy, farmland irrigation and other industries.

- Established in **1979**.
- With a registered capital of **518 million** yuan.
- An area of **75,000** square meters.
- In 2023, invested **278** million yuan to build a new high-temperature resistant medium and high voltage special cable production workshop and introduced two **110KV** and one **35KV** dry-type cross-linked production lines.
- Invested **3.68** million yuan to build a three-story laboratory building with an area of **1,300** square meters.

02 DEVELOPMENT HISTORY

EARLY 1970S

In the early 1970s, Shenxing Cable Group's predecessor was born amid an upsurge. In the 1990s, it was renamed with a new legal person and the "Songshi Brand" was registered as the county became a city.

2001-2008

On December 18, 2001, the company was renamed Shijiazhuang Shenxing Cable Factory. It expanded scale, added production lines, used boilers to solve problems, increased staff and output value.

2009 - 2010

Due to limitations, it was re-established. 1-year transition. For business expansion, related companies were set up to explore the cable industry, integrate resources and improve efficiency and quality.

2011 - 2018

In 2014, the company was renamed Shenxing Cable Group Co., Ltd. with Liu Zhongjie as legal person and increased registered capital. Industrial production license expanded. Certification certificates increased. Graphic trademark registered and favored.

2019 - 2022

From 2019 to 2022, the legal person Liu Zhongjie, the registered capital increased from 318 million yuan to 518 million yuan.

The company's strength is growing day by day, and its production capacity has been greatly improved.

The production capacity covers everything from home decoration wires to various high and low voltage cables, mining cables, rubber sheathed cables, high temperature resistant cables, and fireproof special cables.

The products are widely used in key projects such as subways, urban construction, and mines, and have won the support and trust of more high-end users.

2023 TO PRESENT

The newly built high-temperature resistant application technology innovation center experimental building serves as the product testing and project R&D center of Shenxing Cable Group and has the functions of product testing, project R&D and corporate exhibition hall.

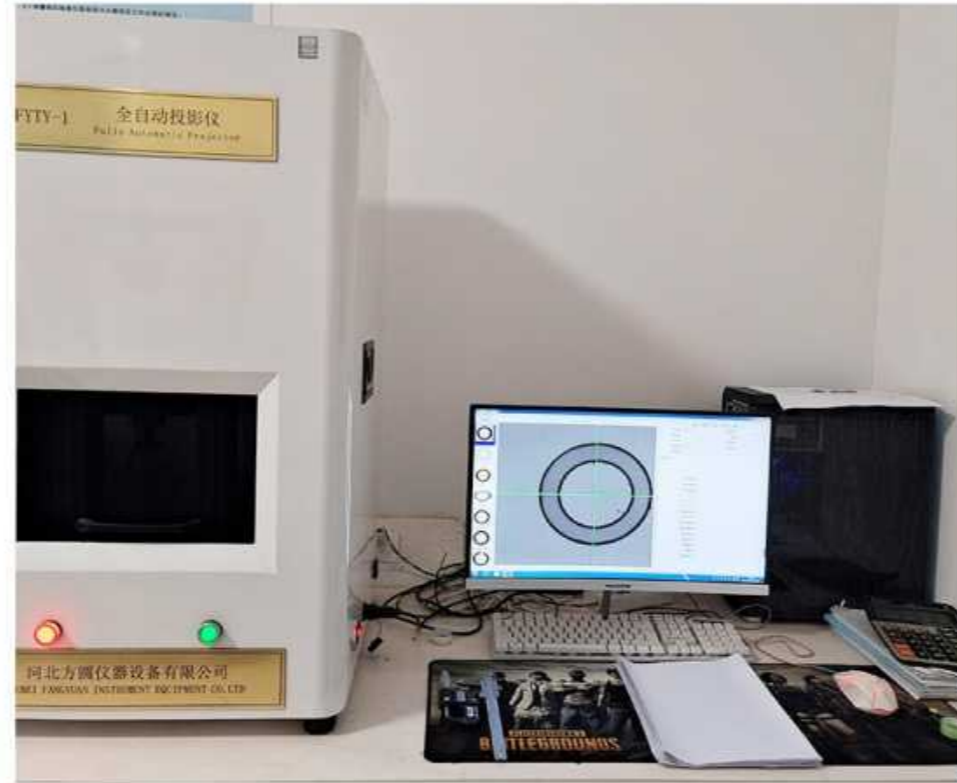

The newly built high-temperature resistant medium and high voltage special cable production workshop introduces 2 110KV, 1 35KV dry type cross-linked production line, becoming the first cable company in Shijiazhuang area to have a 110KV dry cross-linking production line.

Finished Product Graphics

New Energy

Suitable for solar energy, wind power generation, and electric vehicle charging stations, ensuring the transmission of electricity in the field of new energy.

Ship

Provide reliable cable support for ship power, propulsion, communication, and navigation systems.

State Grid

Used for transmission and distribution lines and substations of State Grid.

Building

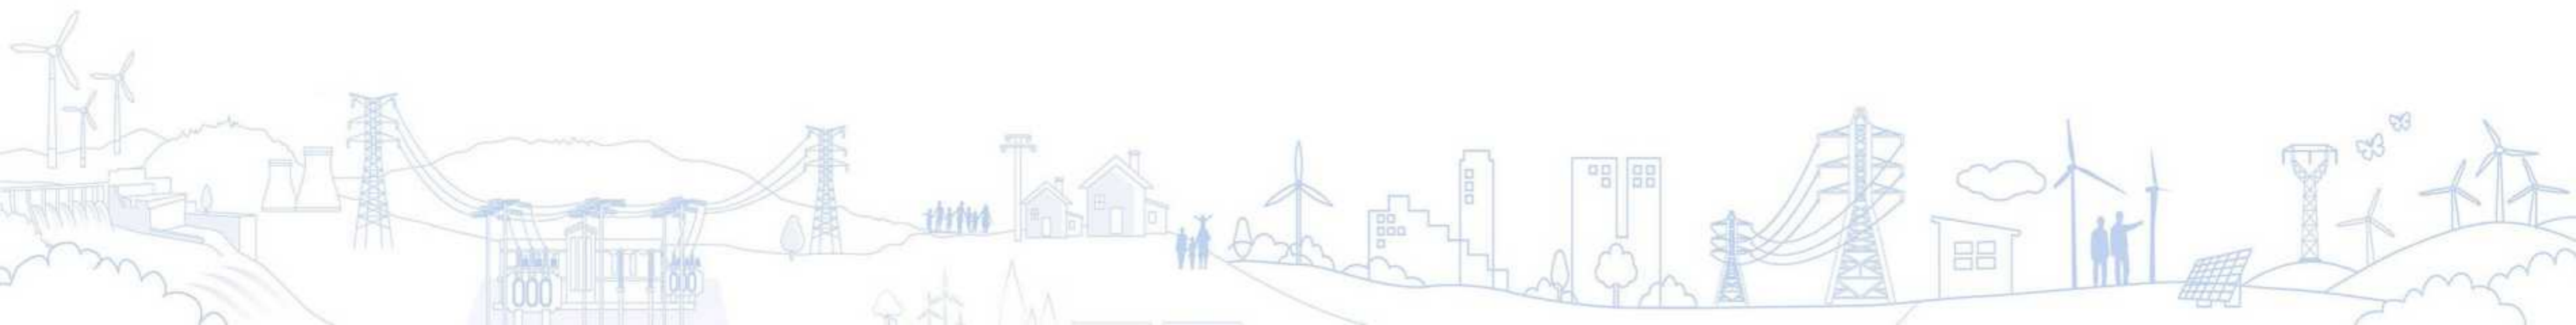

Provide stable power transmission for building power distribution, lighting, sockets, and renovation.

Rail transit

Plays an important role in power supply, traction, signaling, and communication of rail transit.

Mining

Ensure power supply, mechanical connection, and monitoring communication in the mine.

07 CERTIFICATE OF HONOR

Our company has also been awarded prestigious certificates such as ISO9001, ISO14001, ISO45001, ISO50001, and CE, which are a testament to our commitment to quality, environmental protection, occupational health and safety, and energy management.

These certificates reflect our dedication to providing high-quality products and services while adhering to international standards.

At Shenxing Cable Group, we are committed to continuous innovation and development, striving to be a leader in the wire and cable industry and making significant contributions to the country's economic development and technological progress.
